

## Inheritance game!

### Description:

In this text based adventure game, the player has to wander through the various and potentially dangerous rooms of an infinite maze of yellow walls and wet carpet. If they are successful, the player will escape into New York City. If they aren't successful, their corpse will rot in the mazes depths. The player interacts using the Fight, Help, inventory, rest, run, take, use, and wander commands.

### UCS:

#### Scenario 1:

The player immediately rests at the start of the game

#### Result:

Energy is added to the energy meter

#### Scenario 2:

The player types a command that doesn't exist.

#### Result:

The player is prompted to use the 'help' command

#### Scenario 3:

The player tries to fight the monster but only has 2 energy.

#### Result:

The player dies from the monster

#### Scenario 4:

The player tries to run from the monster with 4 energy.

#### Result:

The player gets away without taking any damage.
